WHY CHOOSE US ?

Creator's is an emerging company which provides an opportunity to increase the productivity of production process. With expert in the field of manufacturing Industrial products we are reaching out to tier 1 tier 2 and tier 3 cities across India where the biggest markets are waiting to be served.

Creator's value proposition helps you increase your productivity & strives hard to deliver its products across India wherever there is an assured market. As a young & dynamic organization, we have passionately thrived hard to service & deliver end to end product line pan India with both quality and quantity to the utmost satisfaction of our valued patrons.

Within a very short span of time we have created a niche for ourselves. Since our inception, we have been manufacturing Construction Chemicals, Aerosols, Maintenance Products, Industrial Polishes, Automobile Polishes and many more. We not only manufacture standard size of our range but also customize them according to the specification given by the customer. Apart from this we also package consignment as per the requirement of the customer.

To process our entire range, we have developed a state-of-the-art infrastructure unit, which is spread across an extensive area of premises. Owing to our team of logistic personnel, we are committed to dispatch our range in stipulated time-period. Also, without compromising with the quality of the products

VISION

To become India's most trust worthy company with a commitment to deliver right goods & at a right price & to provide customized solutions to our esteemed clients, which will help them increase the productivity & profitability of their organizations

MISSION

To aggressively grow the company by achieving performance to our customers in the following areas:

- Product Quality
- On –time Delivery
- Value
- Meeting or exceeding committed timelines

By excelling in these areas we will create an environment that will allow us to continue to grow our top line revenue.

To set up at least two clone manufacturing unit in different states of India. Also to step in International markets in Gulf countries and African markets.

CONCRETE ADMIXTURES WONDERCRETE (SUPERPLASTICIZER)

High Range Water Reducing Concrete Super Plasticizer

A highly effective 3rd Generation dual action liquid Super Plasticizer for the production of free flowing concrete in hot weather and as a substantial water reducing agent for achieving high ultimate strength i.e. high initial and final compressive strengths. WONDERCRETE has been primarily developed for applications in concrete industries where the highest durability and performance is required. WONDERCRETE is compatible with all Portland cements that meet recognized international standards.

ADVANTAGES :

- High Water Reduction
- Significant increase in ultimate strengths
- Improved surface finish
- No excessive air entrainment
- No adverse shrinkage effects
- Better resistance to aggressive atmospheric conditions
- Increased durability
- Lower permeability

RANGE IN SUPERPLASTICIZER

- Wondercrete WSN-200
- Wondercrete PB

CONCRETE ADMIXTURES ACCELERATORS

A highly effective Accelerating admixtures for the production of free flowing concrete in hot weather and to gain high initial and final compressive strengths. It Accelerates the setting and early strength gain of Portland cement concrete and mortar mixes gives significant increases in early strengths. Typical applications include precast concrete, concrete placed in cold weather, concrete for repairs, mortars for brickwork.

ADVANTAGES:

- It is safe in pre-stressed and reinforced concrete.
- Produces exceptionally high early strengths, early setting improve frost resistance.

RANGE IN ACCELERATORS:

- Pavercrete-125
- LCH-200
- NC-200
- Pavercrete-500
- Pavercrete-EA

CREATOR'S WATERPROOFING COMPOUND

CREATOR'S ICWP 52

Creator's ICWP 52 will improve the performance properties of plaster, Mortar, and concrete. It will help in reducing water-cement ratio, it will also improve the workability of a cementitious mix, it will reduce permeability and enhancing the compressive strength. It Makes plaster mortar and concrete cohesive and enhances the compressive strength and water tightness.

It's a free-flowing liquid brown in color, and easy to mix in cementitious mixture.

SPECIALIZED CONCRETE ADMIXTURES

It is a high performance liquid admixture based on speciality polymers to produce high initial and final compressive strength. It is especially suitable for Fly Ash Bricks & AAC Blocks manufacturing industry. It is an ideal admixture for Fly Ash Bricks, AAC Blocks and Precast Concrete because of its excellent dispersion properties and where low water cement ratios are required. This results in very high initial and ultimate compressive strength in concrete with optimum density and minimum voids.

ADVANTAGES :

- Increased initial and final compressive strengths
- Lower permeability
- High workability without segregation
- Good water proofing quality
- Reduction in water absorption
- Reduced shrinkage and creep,
- Increased durability & flexural strength
- Better resistance to carbonation.

PRODUCT RANGE:

- Creator's AAC-200
- Creator's AAC-500

CREATOR'S LACQUER

Creator's Lacquer is a high quality quick drying clear lacquer based on rich & high performance synthetic polymers & solvents. It is a single component ready to use lacquer with excellent abrasion & U.V. resistance, durability, and absolute water resistance. It is recommended for use of coating reflective to get a Glossy Finish.

METHOD OF APPLICATION:

By Spouge or Spraying

COVERING CAPACITY:

8-10 sq. mt (85-100 sq. ft) / Litre per coat
(depending on method of application, surface and film thickness).

APPLICATION:

Concrete Surfaces / Paver Block / Concrete Tiles

RANGE IN LACQUER:

- Paver Lacquer
- Glossy PC Super Plast(Made to order)

AUTOMOBILE POLISHES

1. CREATOR'S – CAR POLISH

We are a highly reliable firm engaged in the providing premium quality Car Polish which is manufactured using highly qualitative ingredients. This polish is used to cleanse the car's body and remove all the dust and dirt on its surface.

It is a great shiner which efficiently aids in maintaining the auto body shine for a longer time-period, acting as a protective coating. These car auto body shiners guard car surface from external factors like corrosion and pollution. These are even utilized for removing light oxidation and micro scratches.

2. CREATOR'S DASH BOARD POLISH

This special blend contains gloss enhancers to produce showroom like shine. It prevents sun fade & cracking on dash board surface. It is ideal for PVC, plastic & leather. It will also revitalize neglected PVC to help restore that pleasant feel, conditioning and protecting from weather, UV rays and pollutants. Dashboard maintained with Creator's Interior car care not only feels good but also prevents interior plastics from aging faster and looking dull.

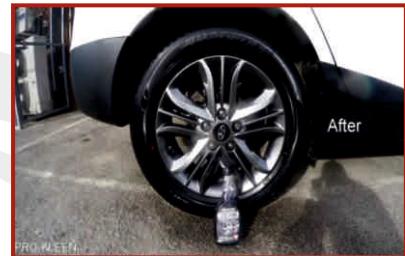

3. CREATOR'S- BIKE SHINER

Marvellous shine gives the best glow to your bike with a sparkling finish. It is formulated to protect the paint, shine and protective polish of your bike. The offered range is processed using quality tested chemical compounds and ultra-modular processing techniques under the visionary guidance of skilled professionals.

4. CREATOR'S BLACK TYRE POLISH

Driven with perfection, Our Company has earned huge reputation in providing Car Tyre Polish to our clients. This Tyre Polish is manufactured using finest grade of raw material at our unit under the supervision of experts. Some unique features of our product are: Superior shine, quick drying, and it increase the life of tyres. This product is available in various packaging sizes and is widely demanded by our esteemed clients.

5. CREATOR'S -CHAIN CLEANER SPRAY

Chain Cleaner is offered for superior working action and has powerful flushing action as well as allows quick drying support. Featuring quality constitution, the offered solution also provides instant cleaning support and provides sparkling finish to metal surfaces with a protective shield on the chain. It provides active cleaning with no residue presence, post cleaning. Enhances the life and smoothness of the chain.

6. CREATOR'S - CHAIN LUBRICANT SPRAY

Faulty practice of lubricating the chain in majority of industries, often lead to a short life span of chains. Current chain lubrication practice consists of applying heavy oil or grease to the exterior portion of the chain, due to which the oil or grease does not penetrate inside. Chain Lub is specialized in penetrating deep inside the chain and sprocket, enhancing the life of the chain for best operational results.

SILICONE SPRAY

Silicone Spray is a powerful aerosol which helps to release the moulds easily and gives the product a perfect finish. Silicone Spray is mainly used for releasing plastic molded articles from their molds and dies during the injection moulding process. These Mold Release Silicone Sprays provide faithful and clean reproduction of moulded articles. They are commonly used to release articles such as TV and audio system cabinets, pens, automobile components, computer key boards and similar plastic parts. They are also used to release Resin, PU, Metal and Wax based articles in certain cases.

ANTI - SPATTER SPRAY

They are used to prevent adhesion of unwanted spatter to the torch or substrate, generated in welding processes, especially in CO, TIG and MIG welding. A light spray over the work / jig etc. will prevent most spatters sticking to the surface, a simple wipe with a cloth or rub with a wire brush will remove virtually all spatters these agents are helpful in reducing the unnecessary labour costs involved in removal of spatter and improving the finish of the welded article.

CR-90 ALL PURPOSE SPRAY

CR-90 protects metal from rust and corrosion, penetrates stuck parts, displaces moisture and lubricates almost anything. It even removes grease & grime from most of the surfaces. It is multipurpose hardware spray used in more than 200 ways to ease out difficult task in simple manner.

NUT - BOLT RELEASE SPRAY

This spray is specially designed for releasing jammed and rusted Nut Bolts. NBR is vastly used for Industrial purpose and Automobile purpose. Frees badly corroded nuts and bolts, mechanisms, actuators and switches. Where pin-point accuracy is required or for hard-to-reach areas, use the applicator tube supplied with each aerosol.

1. CREATOR'S – FURNITURE POLISH

Our company is well known in offering a premium grade Furniture Polish. The polish is processed by our skilled professionals using premium quality of chemical compounds. It is spirit free and made from industrial solvents. It gives a long lasting durability and fine shine to all kinds of wooden furniture. It enhances the shine of furniture and protects it from termite. It is free from impurities and very much environment friendly.

3. CREATOR'S - STEEL SHINE POLISH

We primarily focus on the quality of our products & use premium quality raw materials. This product can easily clean the steel products including stainless steel walls, panels, doors, and outside surface of equipments. A super-fast, low maintenance, combo of aluminium, chrome and stainless steel polish that gives incredible results, when you only have little time to spare. Our offered range is formulated under strict quality control measures using hi-tech machines and methodology

TYPES OF STEEL POLISH:

Steel Polish (Resin Base)

Steel Polish (Wax Base)

2. CREATOR'S-LEATHER SHINE POLISH

Our leather shine polish has a silicone based formulation for maintaining and shining of leather goods. It also maintains the gloss and forms an anti-static film, which repels dirt. With accurate composition, our product is highly effective which gives a longer shelf life.

1. CREATOR'S SILICONE GREASE

We are one of the prominent players in offering Silicone Grease to our clients. This product is made by using good quality components sourced from the trusted experts of the industry. Our product is well-known for its standard and purity. It is extensively used in various industries like, textiles, steel plants, cement plant, chemical plants and fertilizers. Some of the features of this grease are High temperature stability, Long life lubricant, Low amount of friction, Resist water-steam acid & alkali and Anti tracking coating.

2. CREATOR'S HIGH TEMPERATURE GREASE

Backed with newest technology and capable professionals, we are engaged in offering high quality High Temperature Grease. This is a good lubricating grease for High Temperature and high load applications in, Paper, Textiles, Sugar Heavy Duty Vehicles, Cranes, Mining, Heavy Engineering Equipment's, Automobiles and Anti-friction Bearings operating at high temperatures. This is specially articulated for those where ordinary lubricants dribble off or melt due to high temperatures.
